Education		Hygiene	1	A	Physics			

He has at this date a total of 14 credits; the requirement for graduation is 128 credits.

He is charged with entrance conditions in.....

(Over)

The normal number of credits per term is 16.

A, B, C and D are passing grades; E—deficient; F—failed; abs.—absent from examination.

A student rated as Deficient in any course does not receive credit for that course. He may, however, obtain such credit by successfully passing an examination to be held on an appointed day during the coming term. But if he does not pass this examination, he will be rated as Failed in the course, and will not be permitted to continue any course to which such a course is a prerequisite.

A student rated as Failed in any course is not allowed a second examination, and can obtain credit for the course only by repeating it during a succeeding term.

A student absent from the examination in any course is rated as Failed unless he shall obtain permission from the Faculty Committee on Course and Standing to be examined at the regular Deficiency examination. Such permission will be granted only for exceptional reasons.
