Our records may not show all the earnings a person had in the last calendar year because of the time required to receive and process reports.

One of the requirements for a person to receive benefits at retirement age or later is that he must work long enough under social security to give him an insured status. Insured status is measured in quarters of coverage and the number of quarters of coverage a person needs depends on the date of his birth. However, in no case will a person need more than 40 quarters of coverage at retirement age.

BASED ON THE DATE OF BIRTH YOU GAVE US, YOU NEED 32
 QUARTERS OF COVERAGE TO BE INSURED FOR AT LEAST
 MINIMUM RETIREMENT BENEFITS. OUR RECORDS SHOW YOU
 NOW HAVE MET THIS REQUIREMENT.

The insured status information above applies only to retirement benefits. For information regarding eligibility for disability, survivors, or health insurance benefits, get in touch with the social security office most convenient to you.

If this statement does not agree with your own record, please write or visit your nearest social security office, or write to us. This statement should be enclosed if you write us, or take it with you if you visit one of our offices. Unless you report an error within 3 years, 3 months, and 15 days after the year in which you were paid wages or after the taxable year in which you derived self-employment income, correction of our records may not be possible.

The enclosed booklet contains a brief summary of the social security program, information about your social security account, and a further explanation of the action you should take if you do not agree with this statement of your earnings. Answers to any specific question you have asked will be found on the pages checked in the booklet index. The people in your local social security office will be pleased to answer any other questions you have about the social security program.

Sincerely yours,
